WILD SPLENDOURS

Ornate abstractions above all.

Inspired by unique and unexpected traits created by nature, illuminated by dew reflections, enchanted by a ray of sunshine. This new collection is clearly inspired by archaic and organic motifs, but revisited, refined and chiseled. They express great formal impact, exuding purity and a stylistic synthesis of splendor that interpret contemporary chic. Wild Splendours are fabrics with geometrical or informal designs, with substance or metallic flares, where influences of different cultures have blended and reharmonized, generating a new and intense artistic language.

KOHRO is an Italian manufacturer and editor of high-quality textiles for furnishing for interior decoration. An expression of Made-in-Italy excellence, taste, savoir vivre developed over seventy years of expertise, KOHRO's products are made with the best raw materials through a tightly controlled textile supply chain. KOHRO collections - which in addition to fabrics include bespoke beddings products, home furnishings, fabric wall coverings, carpets and rugs - leverage a rich Italian cultural heritage and combine art, design, craftsmanship and service.

GLEAMING WILDSCAPE

The Grand Design Collection

Contemporary verve and Art Deco.

Gleaming Wildscape sums up the charm of mural decorations found in ocean liner halls, theater lobbies, and exclusive residences from the Twenties, Thirties and Forties. Golden glows and contemporary forms outline a modern Eden, where man and nature coexist - sculptural figures and tattooed animals, architecture and vegetation - each sign contributing to a precious composition with a strong decorative and enveloping effect. Gleaming Wildscape measures 40 meters in total and is available in 6 color variations.
